

CampDoc Decision Guide

6 Things Your Camp IT Team Will Want to Know

A NOTE FROM OUR FOUNDER & CEO

Choosing the right platform for your camp is no small task. Whether you're managing an established program or just starting out, finding a solution that fits your unique needs can feel overwhelming.

At CampDoc, we get it. Our team is made up of former camp directors, health staff, and advocates who have walked in your shoes. We know firsthand what it takes to run a successful program. This real-world experience is at the heart of everything we do.

That's why we built CampDoc, to help you do more with less effort.

Our mission is to make your administrative tasks easier while safeguarding your participants' health and safety. With CampDoc, you can focus on what matters most: creating great experiences for campers and building connections in your community.

Since 2009, we've helped thousands of camps enhance health and safety, streamline registration processes, and handle the critical behind-the-scenes tasks that drive success. As the only camp management solution with a fully integrated electronic health records (EHR) platform, CampDoc saves time, reduces errors, and helps lower risk for your team, families, and participants.

We believe in transparency. Our goal is to guide you through the decision-making process and help you find the best solution for your needs, whether that's CampDoc or another platform.

If you're wondering whether CampDoc is the right fit, let's chat! We'd love to walk you through the features, options, and pricing. No pressure and no pushy sales tactics. Just an honest, open conversation about what you need and how we can help you get there.

We don't want to be just another software provider; we aim to be a long-term partner.

Thank you for considering CampDoc as part of your journey. It's an honor to support camps like yours that make a lasting impact on children's lives. We're excited about the opportunity to work with you and help make this season one of your best yet!

M.D. Michael Ambrose
Founder & CEO of DocNetwork

6 Things Your IT Team Will Want to Know

01 Does CampDoc meet HIPAA and FERPA compliance standards?

Yes. CampDoc is fully compliant with both HIPAA (Health Insurance Portability and Accountability Act) and FERPA (Family Educational Rights and Privacy Act). We follow strict security and privacy protocols to protect sensitive health and participants' information, including encrypted data storage and secure access controls.

Our platform is designed to help your program meet regulatory requirements while keeping participants records safe, confidential, and accessible only to authorized users.

For more details about our security protocols, please visit our [Security Policy](#) page or [contact us](#) for specific compliance documentation.

02 How is our participants' data stored and protected?

At CampDoc, protecting your data is our top priority. We use state-of-the-art encryption to ensure all your participants' information remains confidential and secure, both in transit and at rest.

As a SOC 2 Type 2 certified and HIPAA-compliant platform, CampDoc meets the highest industry standards for data security. This dual certification demonstrates strong controls to protect data at the highest level, ensuring both general data security and specific health information privacy requirements are met.

For more details about our security protocols, please visit our [Security Policy](#) page or [contact us](#) for specific compliance documentation.

03 Can we control who has access to certain information based on their role or department?

Absolutely! CampDoc makes it easy to control who has access to what with a customizable, role-based permissions system. You can create custom roles with specific sets of permissions and assign them to groups or individuals. This ensures that everyone only sees the information they need, keeping data secure and operations running smoothly. Plus, you can update permissions anytime as your program's needs change.

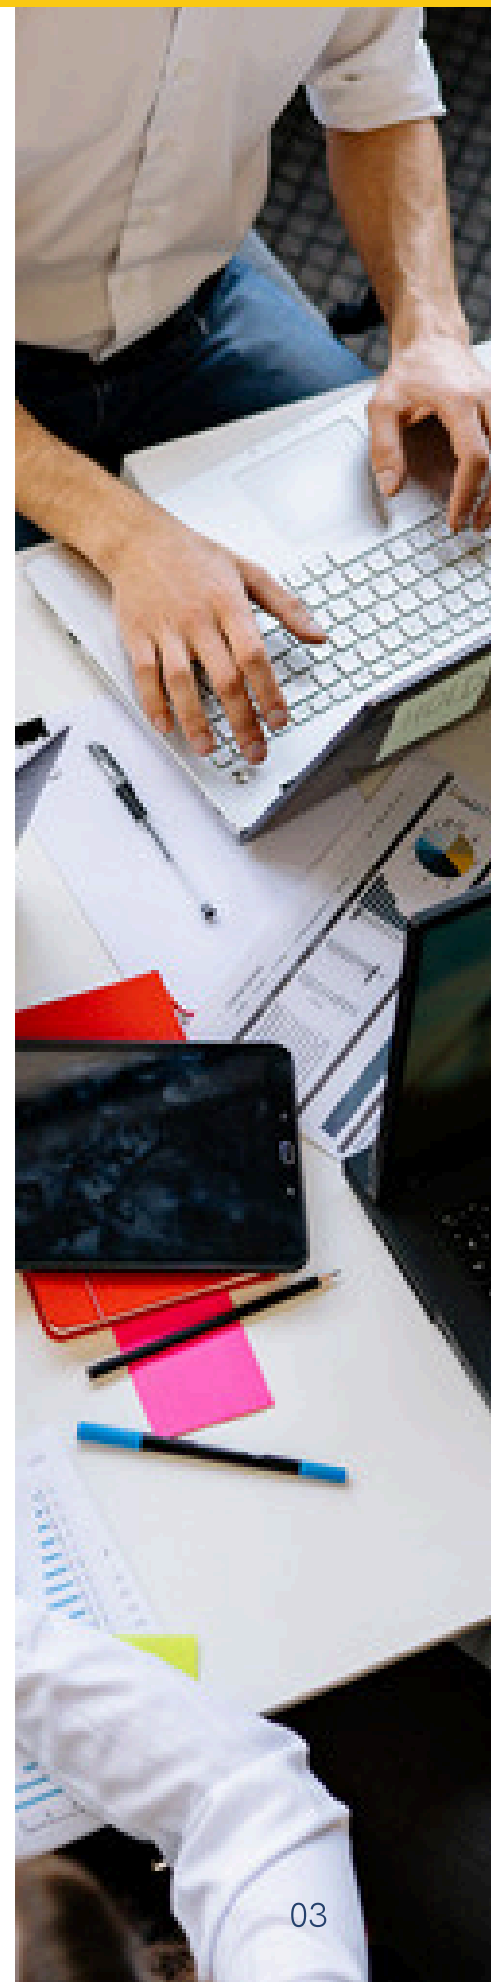

04 How does CampDoc protect our sensitive health and participants' data?

CampDoc ensures your participants' sensitive information is always secure with the highest standards in health data security. Fully compliant with both HIPAA (Health Insurance Portability and Accountability Act) and FERPA (Family Educational Rights and Privacy Act), we safeguard health and educational records with the gold standard of protection.

We use advanced encryption to protect data both in transit and at rest, conduct regular system audits, and implement strict access controls to prevent unauthorized access. By staying up-to-date with the latest regulations and best practices, CampDoc ensures your data is protected while helping you remain compliant with all necessary health data regulations.

05 How many users can we have on CampDoc?

There is no limit to the number of users you can create with CampDoc. Whether you need to manage a small team or a large staff, you can easily add as many users as necessary to ensure everyone involved in your program operations has access to the information they need.

06 Does CampDoc support multi-factor authentication (MFA)?

Yes! CampDoc supports Multi-Factor Authentication (MFA) to help keep your participant and staff data safe and secure. MFA adds an extra layer of protection by requiring users to verify their identity with two or more credentials when logging in.

Primary Providers can enable MFA for their organization from the CampDoc Provider Portal. Once enabled, users log in with their email and password plus an MFA method of their choice. Devices such as smartphones, tablets, or computers can be registered, and users can choose either SMS or an authenticator app.

Users can easily view, update, or remove their MFA devices from their account settings. Additionally, your organization has a unique MFA Recovery Passphrase that can be used to request a device reset through our Support Team.

Take action to safeguard your participants data. [Schedule a demo today](#) to see how CampDoc streamlines workflows, simplifies operations, and gives your IT team with complete peace of mind!

Multi-Factor Authentication (MFA)

❗ If your Organization has MFA enabled, this is where you will add / change / remove devices that will generate authentication codes.

Add Device

❗ SMS device sends a MFA code to your cellular device to verify. Auth App displays a MFA code via an authenticator app to secure your account.

 SMS DEVICE

 AUTH APP

Add MFA Device

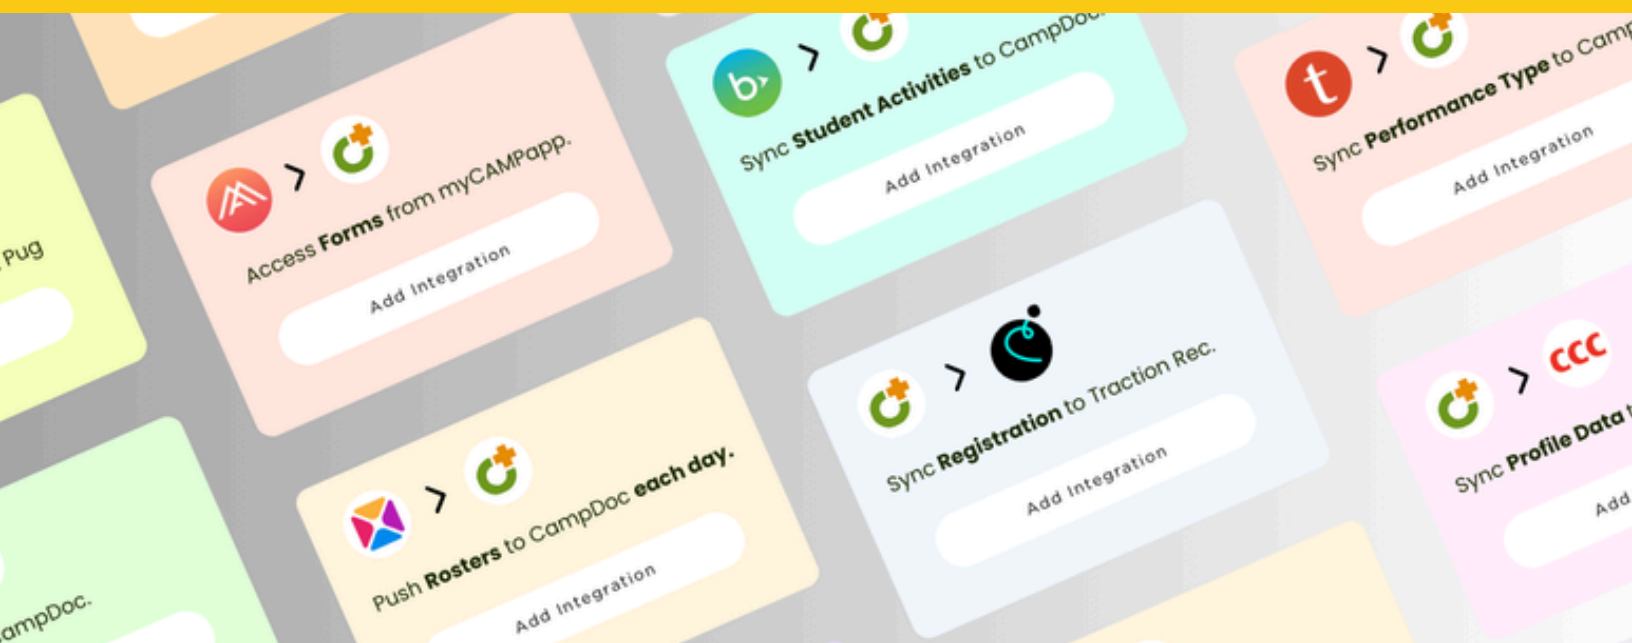

Scan the QR code using an authentication application such as [Google Authenticator](#) on your phone

Can't scan the code?

Please enter the code created by the authenticator app.

07 Can CampDoc integrate with other tools or systems my camp is already using?

Absolutely! CampDoc is designed to work seamlessly with the tools you already use, eliminating double data entry and simplifying your day-to-day operations.

We integrate with a variety of platforms, including payment processors, CRM systems, ticketing software, event management tools, membership platforms, and other camp management solutions. This means you can keep using your favorite software while maximizing the benefits of CampDoc.

For larger programs or those with unique needs, our API (Application Programming Interface) provides even greater flexibility. Think of it as a universal connector that allows you to create custom functionality, so you can sync data effortlessly or build tailored connections between CampDoc and your other systems.
